## Career Objective

Motivated Computer Science (Data Science) undergraduate with strong foundations in Machine Learning, Data Analysis, and Statistical Modelling. Experienced in building end-to-end ML projects, performing exploratory data analysis, and deploying data-driven applications using Python, Flask and FastAPI. Seeking an entry-level Data Science / Machine Learning Engineer role to apply analytical skills and contribute to real-world problem solving.

## Education

- **Buddha Institute of Technology** Gorakhpur, India 2022–2026
  - B. Tech –Computer Science & Engineering (Data Science)
  - **Relevant Courses:** Python, Statics, Linear algebra, Probability, Machine Learning and deep learning, Web Development.
- **Shree Lal Bahadur Shastri Smarak Inter College Tumpar SKN**
  - 12<sup>th</sup>– Science Stream Pass with 73.4% marks |passing year – 2022
  - 10<sup>th</sup>– Science Stream Pass with 85.5% marks |passing year – 2020

## Skills Summary

- **Programming Languages** – C, Python, SQL
- **Data Science & Machine Learning:** Machine Learning Algorithms, Supervised Learning, Unsupervised Learning, Model Evaluation, Feature Engineering, Data Preprocessing, Classification Models, Regression Models
- **Libraries & Frameworks:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow
- **Data Visualization & Analytics Tools:** Excel, Power BI, Exploratory Data Analysis (EDA), Dashboard Development
- **Databases:** MySQL, PostgreSQL
- **Deployment, Tools & Cloud:** Flask, FastAPI, Git, GitHub, Jupyter Notebook, Google Colab, Vercel, Render
- **Soft Skills** - Leadership, Communication, Time Management, Event Management Internship, Project Management

## Internships

- **IBM Skillbuild: Data Analytics (Virtual)** | Duration: 4 weeks| Role- Analyst
- **Smart Bridge Data Analytics (Virtual)** | Duration: 4 weeks |Role- Analyst
- **Infosys Springboard Python Development (Virtual)** | Duration: 8 weeks | Role- Backend Developer

## Projects

- **Quiz Generator Using OpenAI (Full Stack Project)**
  - Built a quiz generation tool that creates quizzes automatically from user inputs such as topic, notes, PDF content, and text.
  - Reduced manual effort and improved quiz creation efficiency for self-practice and learning support.
  - Designed the project to help students generate practice questions for academic subjects and Revision.
  - **GitHub:** [github.com/KhalikKhan25/QuizGenerator](https://github.com/KhalikKhan25/QuizGenerator)
- **Power BI Dashboard – Global Inflation Analysis**
  - Developed an interactive Power BI dashboard to analyse global inflation trends by country and region.
  - Used slicers, filters, and DAX measures to explore temporal and spatial patterns in inflation data.
  - **GitHub:** <https://github.com/KhalikKhan25/Global-Inflation-Analysis-Using-PowerBI>
- **Soil Quality Analysis and Recommendation System (Final Year Project)**
  - Developed a machine learning and data-driven web application using Flask, Firebase, and scikit-learn.
  - Trained models on soil quality prediction, and recommendation request datasets achieving 96% accuracy.
  - Integrated dashboard for monitoring the recommendation of crop and fertilizer, and condition of soil.
  - **GitHub:** [https://github.com/KhalikKhan25/Soil\\_Quality\\_Analysis](https://github.com/KhalikKhan25/Soil_Quality_Analysis)
- **Modern Digital Banking Dashboards**
  - A complete full-stack banking Application built with modern technologies, featuring secure authentication, multi-account management, and comprehensive financial tracking.
  - Role based access control (Admin, User) and multi accounts management and transactions
  - **GitHub:** <https://github.com/KhalikKhan25/Modern-Digital-Banking-Dashboard-Personal>

## Certification

- **IBM skillbuild (PBL CSRBOX)– Data Analytics**
- **United Latino Students Association - Power BI**
- **GeeksforGeeks- Python, Machine Learning and Deep Learning**
- **NPTEL: Machine Learning**
- **Publication: Paper Tittle- GeoPulse, Conference Name- “ICSDS -2025”**

## Leadership & Extracurriculars

Lead of Final Year project, Active learner in Machine Learning and Data Science,  
**GATE 2026 (CSE) Qualified** - Gate Score 464/1000
